Sargodha

## Language

- English
- Urdu

## Expertise

- Web Development (Frontend + Backend)
- Python & Django Framework
- PHP & Laravel Framework
- Responsive Website Design (HTML, CSS, Bootstrap)
- Database Management (MySQL, SQLite)
- RESTful API Development
- Git & GitHub (Version Control)

## Experience

### Self-Projects / Internship

#### Sargodha – Pakistan

Jul 2024 – Apr 2025

- Designed and developed responsive websites using HTML5, CSS3, and JavaScript.
- Built dynamic web applications with Python (Django framework) including templates, models, migrations, and forms.
- Created RESTful APIs and CRUD functionality in PHP & Laravel.
- Integrated frontend with backend ensuring smooth data flow and user interaction.
- Applied version control (Git/GitHub) for managing code and collaboration.
- Practiced database design (MySQL, SQLite) and query optimization.
- Ensured cross-browser compatibility and mobile responsiveness.
- Completed multiple self-learning projects and internship-level tasks to strengthen problem-solving skills.

## Skills Summary

### Programming Languages & Frameworks:

- Python (Basics to Intermediate, Django framework)
- PHP (Laravel framework, CRUD & API development)
- JavaScript (Basic DOM manipulation, events)

### Web Development & Frontend:

- HTML5, CSS3, Bootstrap (Responsive and user-friendly design)
- Django Templates, Jinja Templating, Laravel MVC & Routing

### Databases & Backend:

- MySQL, SQLite (Database design, CRUD operations, query optimization)
- RESTful API development, dynamic data handling

### Version Control & Collaboration:

- Git, GitHub (Version control, project collaboration, code management)

### Other Skills:

- Error handling, File handling, Debugging, Cross-browser compatibility
- Problem-solving, Team collaboration, Continuous learning in Web Development
