PROFILE

I am a full-stack web developer with strong expertise in HTML5, CSS, JavaScript, Laravel, Python/Django, Php, React.js, Next.js, Express.js, Redux Toolkit, and Tailwind CSS. I have successfully completed several projects, including eCommerce platforms, recipe share, and resume builder web applications. I specialize in building responsive, scalable, and high-performance applications that enhance user experience and meet client requirements.

WORK EXPERIENCE

UPSKILLS IT SOLUTIONS

NOV-2024 - Present

I am working as a Web Developer, growing from basic tasks to managing full-stack projects. On the frontend, I create responsive, user-friendly interfaces, while on the backend, I develop APIs, manage databases, and optimize performance, showcasing my growth into a professional full-stack developer.

PROJECTS

My portfolio

eCommerce Website

- Built a responsive eCommerce website using React.js, Express.js, PostgreSQL, and Tailwind CSS, featuring a product catalog, shopping cart, secure checkout, and user profiles.
- Optimized performance and implemented RESTful APIs to ensure fast load times and smooth data handling.

Recipe Share web app

- Built a responsive Recipe Share web application using React.js, Express.js, MongoDB, and Tailwind CSS, featuring a recipe catalog, user profiles, recipe submission, and interactive comments.
- Optimized performance and implemented RESTful APIs to ensure fast load times and smooth data handling.
